Jinan ACCTEK Machinery Co.,Ltd

Jinan AccTek Machinery Company specializes in manufacturing CNC Router and Laser machines. Since 2005 we have been based in the Industrial Zone of Jinan City, Shandong Province south of Beijing.

Our main products are AccTek CNC Routers and Laser engraving and cutting machines. Stock or custom configurations are our specialty. Components for our machines are sourced from world class suppliers and innovators in machine control.

These machines are used in many industries, crafts and arts businesses around the world. These include woodwork, metal and stone work, aluminum fabrication, boat building, shop fitting, mold making, to name a few. Our dedicated and highly skilled after sales service department, sales team, and thorough quality assurance procedures mean that you can buy with confidence.

We welcome customers and potential business associates from around the world. We can work together cooperatively for mutual benefit.

“Our business is to improve your business! ”

AKG1212 cnc router

★★★★★

I bought the AKG1212 CNC Router and happy with it. During the whole process, Fiona was very responsive and answered all the my questions promptly. Tech support was also very responsive and helpful. When there's a need, I will definitely buy another machine from AccTek.

22 Sep 2020

Difficult to discover the program and get it working properly from the machine. After some trying it will be a bit right. But very happy with the machine! Thank you!

Thanks for your review. Since you don't have any experience, so it's usual to spend several days to learn how to operate, check the user manual and video carefully please, if you need any help, our AccTek service team will always be available. :)

I found the cause of problem. My CAM software have problem, I edit the code and fixed. Thank you for your quick support.

ok friend, any question just feel free to contact me 😊

By the way, do you have CNC laser cutting machine? I'm considering to buy it.

yes, we have laser cutting machine too

what material you want to cut

My request for the laser cutting

I was so nice from you to help me at this hours.

welcome, that is what I should do

Many many thanks!

🙏🙏 sorry for my bad English

Good Night!

thank you 🙏

Your english was sooo good for me!
