Buyer

	Model	Specification	Unit price (FOB)	Quantity	Total price
1	MX-1325	1300*2500mm working area 1. 150W-180W H8 Yongli laser tube 2. Blade table 3. Taiwan Square guide rail 4. Red dot system to position origin 5. Exhausted fan 750w (TWO) 6. Water chiller cw5200 7. Leadshine stepper motor 8. Ruida 6445S controller 9. software :Rdworks v8 10. Voltage 110V/60hz 11. Mirrors and Lens:Three Reflection mirror and a focus lens 12. Engraving speed 500mm/S 13. Connection USB to pc 14. High precision rack drive	USD4875	1 SET	USD4875
Total FOB Qingdao price					USD4875

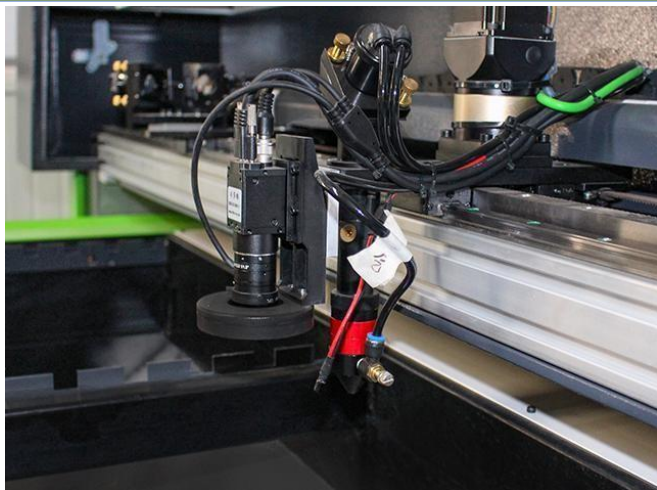

TERMS:
1. Delivery time: 7-15 working days after receipt of payment
2. Payment: payment 50% against proforma and 50% balance before shippment
3. Warranty: 1 years for laser machine

Specifications:

Working area	1300*2500mm
Laser power	150W -180W
Laser type	C02 sealed glass tube laser,water-cooled,10.6um
Engraving speed	0-500mm'S
Cutting speed	Depends on the material
Laser energy control	1-100% manual and software settings
Lens and reflect mirrors	3 reflection mirrors and 1 lens
Voltage	110v/60hz
Cooling system	Water chiller
Control system	Ruida
Control software	Rdworks V8 control
Guide Rail	Taiwan Square Rail
Drive	Stepper motor
Working table	Blade table
Control software	RD works control
Graphic format supported	PLT' CDR /DXF /BMP /IPG /PNG etc.
Transmission method	Rack and reducer drive
Packing size	3690*2220*1400mm
Weight	1000kg

Main details features

Laser head

Unique laser head design, reliable performance and high engraving accuracy with red light, convenient and quick in finding engraving and cutting position

Control System

Ruida control, with multi-language (English, French, Spanish, and more languages updating) available, which is more intuitive, simple and more convenient.

Machine Bed

Square tube welded bed. In the industry. After heat aging treatment, it does not deform for 30 years, and has good stable vibration absorption performance. The high-speed cutting of machine tool can reduce the resonance of machine tool, and the cutting precision is higher.

Blower

Two upper and lower smoke exhaust ports for better smoking effect

Main details features

Reducer structure

Motor Accelerator Structure, it is to reduce the output speed and inertia of the drive motor, while increasing the torque and load capacity, so as to achieve the ideal transmission effect.

X-axis and Y-axis

The X-axis and Y-axis are driven by racks. Changing the traditional belt operation, the advantages are not easy to deform, the optical path is not easy to deviate, and the overall operation is stable. The X-axis adopts double guiderails to run stably and ensure precision.

water chiller

Updated to a built-in water chiller, no installation required, saving time and effort.

accessory

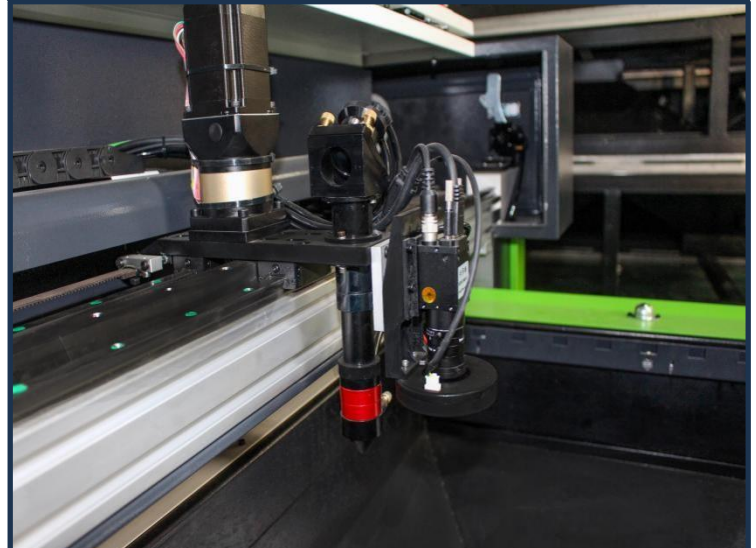

Power distribution cabinet

Laser tube

Oil-water separation

CCD Laser head

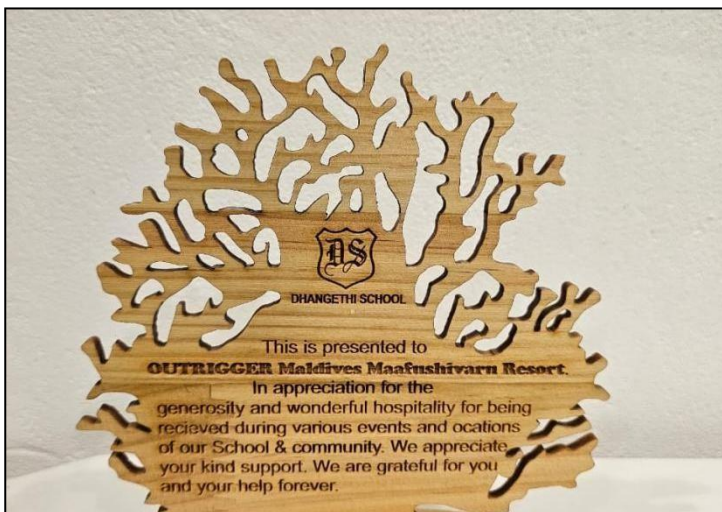

High Quality power supply

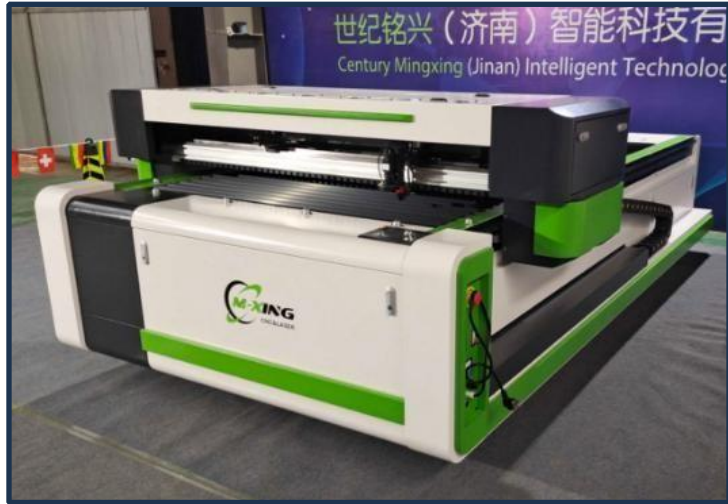

Knife strip

Glass, Pressed Glass, Float Glass, CnystalGlass, irror Glass	✗	✓

Packing and Delivery

1

Machine cleaning and Protective oil processing

2

Wrapping with protective film

3

Wooden box sealing

4

Forklift moving goods

5

container loading

6

Container Sealing and Transportation

Awe-Inspiring 180W CO2 Laser Cutter Journey Thrilled with my 180W CO2 laser cutter from Centur Mingxing (Jinan) Intelligent Technology! Sales guidance was stellar, leading to a seamless transacti The laser cutter surpassed expectations—enabling precise, swift cuts on various materials. The software is a breeze to navigate. Post-purchase, the technical support team was lightning-fast and professional, showcasing an unwavering commitment to customer satisfaction. Punctual delivery highlighted the company's remarkable efficiency and reliability. I wholeheartedly recommend Centur Mingxing (Jinan) Intelligent Technology for those seeking an exceptional laser cutter and top-notch service. Many thanks for crafting such a positive buying experience!

Supplier's reply:

Thank you very much for your trust in us. Our duty is to provide you with high-quality machines and excellent services !

Hi, my dear friend

14:58 ✓

How are you?

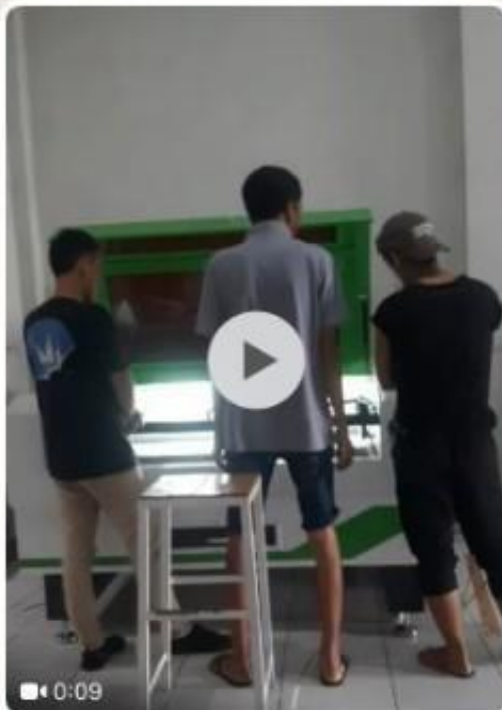

14:58 ✓

Have you received and started using the machine? 😊

14:58 ✓

Hallo im fine thank you

15:08

I'm trying the machine, and the machine runs fine. Thank you for your cooperation all this time, Miss

15:10

You

Hi dear friend ,how are you

I'm good and you

14:59

You

I received your evaluation, thank you for your good comment

Thanks i tested it, everything is fine.

15:00

nice

15:01

15:01

And again, many thanks for the beautiful machine

My device is great

Company Profile

ABOUT Mingxing

Jinan Mingxing Laser Equipment Co., Ltd. is mainly engaged in the research and development, production and sales of laser cutting equipment and laser welding equipment.

Adhering to the professional philosophy of quality-oriented, leading technology, rapid response, high-quality and efficient, technology to create value for customers!
